

Protec - smart security

Protec is smart security. It's built in our hi-tech factory as an all-aluminium design with Prowler Proof's famous welded corners.

The mesh is a single aluminium sheet, perforated and powder coated to the high standards you'd expect from Prowler Proof. The perforations are exactly the right size – small enough to keep insects out, big enough to allow excellent airflow and transparency. The mesh is joined to the heavy duty aluminium frame in a process unique to Prowler Proof.

Protec is one of Australia's strongest and best looking security screens. The frame comes in over 300 colours to suit the black mesh. If you're looking for smart security, you can't go past Protec...

QUICK REFERENCE

- Welded – no screws or rivets
- Maximum security
- Excellent transparency
- Excellent airflow
- Insect protection
- Heavy duty aluminium frame
- Heavy duty aluminium perforated sheet mesh
- More than 300 colours
- Corrosion resistant

✓ Standard + Optional ^ Optional selection / standard on large sizes
S = Security doors require 3 point locking and 5 pin cylinders to meet AS 5039.

Choose our interlocks and receivers designed with H.I.T.™ - Hidden Installation Technology. It means you will have no unsightly fixing screws, and also your door will be more tamper resistant as H.I.T.™ works on the design methodology of hiding all fasteners for aesthetics and for higher security. Our custom designed interlocks and receivers, with H.I.T.™ are exclusive to Prowler Proof, and are available for sliding doors.

Performance
